PERSONAL SUMMARY

A cheerful, optimistic and adventurous spirit, I have excellent social and communicative skills. I am resourceful, able to adapt to and work in various environments. I work very well as part of a team, always ready to help and take advice from colleagues. Furthermore, I have been working as a chef for thirteen years and I want to try my hand at programming. I was attracted by the fact that I moderated games(RTW2) and by making a couple of web pages out of a hobby. I don't have enough experience in web programming at the moment and I would like to learn new technologies. I think I have a lot of room improvement. I am a responsible, ambitious worker with well gained work habits.
